

WELL PROJECT HIGHLIGHTS

City of Austin Permitting and Development Center

The City of Austin Permitting and Development Center is an employee-focused destination where attracting the most engaged, passionate, and talented individual is instrumental for their future. CoA was introduced to the WELL Building Standard during the construction process. The building was actively pursuing the Austin Energy Green Building so the WELL Building Standard was appropriate to align the two programs.

WELL Features

- Monumental stair
- Complimentary healthy snacks
- Sit-to-stand desks
- Quarterly air testing
- Daylight design strategies
- Sound mapping
- Occupant satisfaction surveys
